

# RUBBER/PVC CABLE COVERS

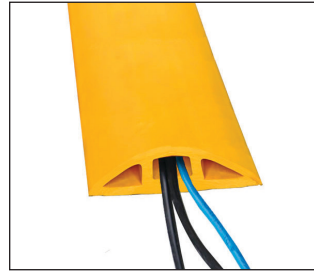

Manufactured from high quality rubber, plastic and pvc, they are suitable for high volume pedestrian traffic and low volume, light to medium weight vehicle traffic. See below for our newest range of economical products or online at [cablecovers.com.au](http://cablecovers.com.au) to see the full range.

- Reduce trip hazards in workplaces
- Ideal for temporary or permanent applications
- Made from durable, lightweight, flexible, rubber or PVC
- Tapered edges and non-slip bases enable them to sit securely
- Cables inserted on the underside or threaded through channels
- Cut to length or available in rolls (10M or 30M)

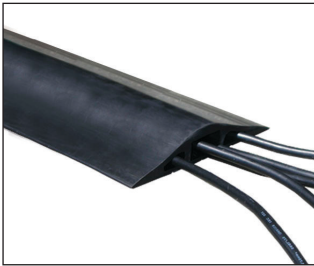

## CP2 up to 3 cables

- Size: 70W x 16Hmm
- Channels: 16W x 10Hmm
- Easily protect 3 cables
- Non-slip cleats on base
- Tough extruded rubber design

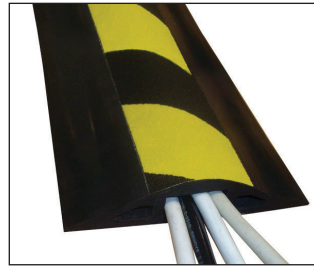

## CP2PVC up to 3 cables

- Size: 70W x 17Hmm
- Channels: 16W x 10Hmm
- Easily protect 3 cables
- Non-slip cleats on base
- Flexible PVC

## CP3 up to 4 cables

- Size: 90W x 20Hmm
- Channels: 19W x 16Hmm
- Easily protect 3-4 cables
- Non-slip cleats on base
- Tough extruded rubber design

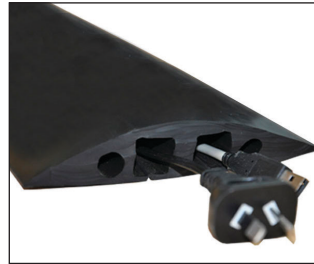

## CP4 up to 8 cables

- Size: 120W x 26Hmm
- Channels: 23W x 20Hmm
- Easily protect 4-5 cables
- Non-slip cleats on base
- Tough extruded rubber design

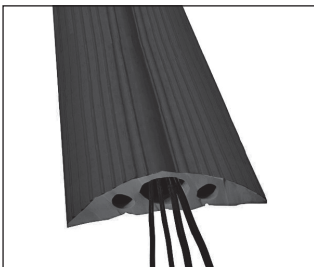

## CP4YPVC up to 5 cables

- Size: 150W x 48Hmm
- Main Channel: 38Wmm dia.
- Side Channel: 10mm diameter
- Easily protect 4-5 cables
- Flexible PVC

## CP5 up to 8 cables

- Size: 150W x 30Hmm
- Main Channels: 20Wx25Hmm
- Side Channels: 10mm dia.
- Easily protect 4-8 cables
- Non-slip cleats on base
- Tough extruded rubber design

## CP6 up to 5 cables

- Size: 150W x 48Hmm
- Main Channel: 38mm diameter
- Side Channel: 10mm diameter
- Easily protect 4-5 cables
- Tough extruded rubber design

## CP14 YPVC up to 6 cables

- Size: 130W x 20Hmm x 1m
- Channel size: 40W x 12Hmm
- Flexible PVC

## CP15 up to 2 cables

- Size: 65mm x 13mm x
- Channel Size: 18W x 8Hmm
- Easily protect 2 cables
- Tough extruded rubber design
